FYSA Water Break Rule and Protocol

402.4 In any FYSA sanctioned match a break will be given at the midpoint of each half of regulation time and at the end of each overtime period (if played) for player hydration. This break will be given at a normal stoppage of play and it is mandatory for any FYSA sanctioned match during which the air temperature is or is expected to reach eighty-five (85) degrees. This break will be a maximum of one (1) to two (2) minutes of time.

1. Rule 402.4 applies to FYSA sanctioned matches.
 - National League, Southern Premier League, and Region III Premier League do not fall under this requirement.
 - Although not a requirement FYSA would recommend teams U10 and below play in quarters with a break of 2-3 minutes between quarters 1-2 and 3-4 to allow for water break and player changes. Thus they would be allowed to leave the field.
2. The decision in regards to a water break should be made before the match starts.
 - The referee or the event site director would make the decision on the need for a water break.
3. The stoppage should be at a normal stoppage as close to the midpoint as possible.
 - The referee determines the timing of the match therefore the timing of the break.
4. Participating players should remain on the field.
 - Bench personnel and non participating players can supply fluids.
5. Normal substitution based on the reason for the stoppage would apply.
 - In a limited substitution match this would equate to a normal stoppage.
6. The referee should treat this stoppage just like any other normal stoppage of play as it relates to game time and extend the time for the stoppage.
7. The stoppage should be no longer than 1-2 minutes.
 - This stoppage should be closer to 1 minute than 2.
 - This is not a coaching opportunity. Coaches can be warned especially if their coaching is delaying the game.

SUBJECT: Funding for training of Soccer Officials.

I respectfully request further funding for training of referees in B3. In the past with the funding I have received, we have trained over 100 referees and provided additional training for entry and Re-certification classes. We would like to continue this process with further funding.

I also see a need to give support to the area clubs for classroom locations because a lot of the facilities have raised their fees.

I will continue to give you monthly updates on funds spent and thank all of you for the support you have given FSR and myself in the past years.
